OEM 56820-E6000 56820-F6000 Vehicle Tie Rod Precise Steering **Control**

Basic Information

. Place of Origin: **CHINA** . Brand Name: NABO TS16949 · Certification: Model Number: 56820-E6000 • Minimum Order Quantity: 100 SETS • Price: \$2.57~3.57

 Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard

• Delivery Time: 3~30 work days • Payment Terms: D/P, L/C, T/T

. Supply Ability: 50000 pcs per month

Product Specification

• Product Name: Tie Rod End For Hyundai Kia · Car Make: 12 Months • Warranty: · Quality: 100% Tested

Poly Bag With Carton, After Pallet · Packing: 56820-E6000 56820-F6000 • OEM: . Highlight: 56820-E6000, 56820-F6000

Product Description

56820-E6000 Tie Rod End 56820-F6000 Fit For SONATA Optima

Product Description:

A tie rod end is a crucial component of a vehicle's steering system. It is located at the outer ends of the tie rod and serves to connect the steering linkage to the steering knuckle or spindle. The tie rod end plays a significant role in steering control and stability, allowing for smooth and precise steering movements.

Features:

- **1. Superior Construction:** Our tie rod end is constructed using high-quality materials, such as forged or cast steel, to withstand the demands of daily driving. It is built to resist wear, impact, and corrosion, ensuring long-lasting durability.
- 2. Precise Steering Control: The tie rod end connects the steering linkage to the steering knuckle, translating the driver's input into smooth and precise steering movements. With its accurate design and tight ball joint or bushing mechanism, our tie rod end provides optimal steering control and responsiveness.
- **3. Ball Joint or Bushing Design:** Depending on the vehicle's specifications, our tie rod end is available in either a ball joint or bushing design. Ball joint tie rod ends allow for articulation and rotational movement, while bushing-style tie rod ends offer flexibility and vibration dampening.
- **4. Easy Installation:** Our tie rod end is designed for hassle-free installation. It comes with all the necessary hardware and instructions, making it convenient for both professional mechanics and DIY enthusiasts.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production; Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years A large of stock
Professional export company
